### MANDRAGORE DESIGN

ORGEVAL, FRANCE 2021

Internship Design & front-end development for brand website, logo UX&UI design.

## About Me

At 19, I'm a young man fueled by a dynamic trio: American football, video games, and coding. The adrenaline of football's field, the immersive realms of gaming, and the logic-driven world of coding define me. From touchdown cheers to virtual adventures and lines of code, I'm on a multifaceted journey, weaving these passions into the tapestry of my identity.
